**JOURNAL**

**OFFICE OF LEGISLATIVE COUNSEL**

**Wednesday - 3 June 1964**

25X1

2. [REDACTED] Talked with James Wendall and Colonel Glenn Smith, Senate Preparedness Investigating Subcommittee staff, regarding their prior request for the AIC on Soviet atomic energy programs, the table of Soviet tests and the request that the Subcommittee be informed (as is the Joint Committee on Atomic Energy) of each report of possible Soviet activity. See Memo for the Record for details.

3. [REDACTED] Met with Mr. Benny Kass, Counsel, House Foreign Operations and Government Information Subcommittee, who advised that he had met with the Chairman last evening and discussed the matter of suppression of the publication of **THE INVISIBLE GOVERNMENT** and advised him that the Agency interest was in classified information aspects of the book. The Chairman apparently was agreeable to dropping the matter on the promise that we will advise the committee should changes be made in the book as a result of our protest.

Mr. Kass raised the question again of Agency regulations covering the use and control of the polygraph and polygraph operators. I advised Mr. Kass that we did not plan to provide the Agency regulations to the committee. There was a strong inference in Mr. Kass' very friendly remarks that we might anticipate questioning on Agency regulations from committee members in the course of the hearings next week.
